# THE REAL QUARTZ SINK

As the kitchen sink seems to be heart of kitchen, so while creating your dream kitchen you should go with QUARTEX QUARTZ (GRANITE) SINK. We at QUARTEX believe that every kitchen should be as unique as you are. It should be a place where you feel free to cook, eat, entertain, celebrate and more. And that's why we want to make your kitchen perfect with our sink from morning until night, each and every day.

Let your imagination run free with wide range of options to maximise your space and beauty of the entire kitchen.

## FEATURES

Hygienic

Stain & Dirt  
Resistant

Scratch  
Resistant

Heat  
Resistant

## Europe's finest Colored sink material.

Quartex is an extremely hard-wearing material created by using real quartz (the most durable component of granite; the fourth hardest natural material known to man) mixed with highly-durable acrylic resin.

## Durability :

### ~75% - 80% natural quartz

The 4th hardest material in the world after Topaz, Ruby and Diamond Comes from a high quality at the Black Forest in Germany

### ~20% - 25% acrylic resin

Manufactured in house  
Makes the colours bright with its glass look and feel.

**Colour pigment** is 'merged' with the quartz in a 1000-1200° C kiln (rotating oven)  
The pigment is chemically bonded to individual quartz particles to give accurate colour matching and consistency. **"MADE IN GERMANY"**

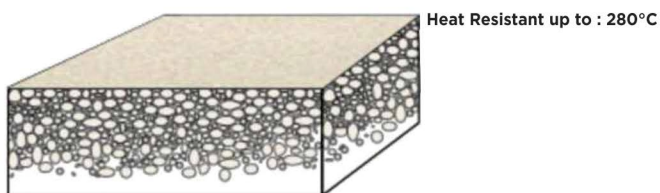

The colours never fade from the material  
The colours cannot be scratched away from the surface

## Quartex Sink Structure

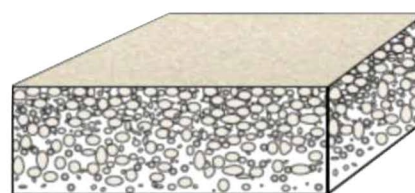

Quartex sink is a Hard Face Acrylic Granite, this means that the working surface of the sink has a very high density of quartz particles.

Other popular acrylic granite sinks use the ici methodology, which means that the quartz is spread more evenly throughout the material.

Heat Resistant up to : 280°C

# FEATURES OF QUARTEX KITCHEN SINK

## SCRATCH RESISTANT

Our Quartex Kitchen sinks have a durable hard surface, resisting scratches and dents from regular use.

## HEAT RESISTANT

The properties of QURTEX material make these sinks heat resistant up to 280° C.

## STAIN FREE

As no liquids can enter in the body, the stain free property is an obvious byproduct.

## ANTI BACTERIAL

Where there is food, there is bacteria. Our sinks' material makes sure none of the bacteria stay on surface. They are easily washed away.

## FULL BODY NON POROUS MATERIAL

The whole body structure is non porous , making it impossible for liquids of any density to flow in the body.

## NOISE LESS

No clunking and banging noises when utensils are worked on in our sinks. The material is granite type negating undue noises.

## HYGIENIC

The material, is totally hygienic keeping the area clean and healthy.

## HIGH CALIBER DURABILITY

Created with scientifically advanced German technology, the quartex sink has high level of durability.

## EASY TO CLEAN

The surfaces of our sinks are easy to clean and maintain, Just Spray soap + water and wipe off the surface.

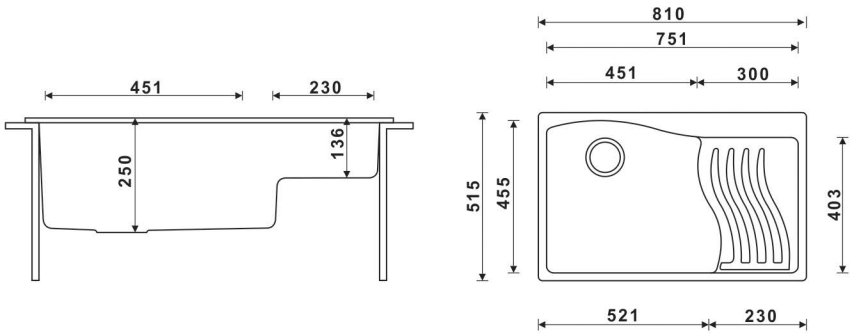

## INTERNATIONAL STANDARD QUALITY

Our material, engineering and production processes make these sinks meet global standards of performance.
